

Economics and Politics

This programme erases the traditional boundaries between the disparate fields of economics, political science, and business. Professors from world-renowned universities in the United States and Europe will help you understand how these different topics influence each other. You will learn the proper application of game theory and be able to perform the critical analysis required to evaluate global events. Through this program, you will develop forecasting skills that will let you assess ongoing trends and identify their potential consequences for a business or national economy. The program will provide you with the professional competence you need to become a business analyst, manager, or an academic, both in European and global political-economic organizations.

Subjects

Comparative Politics (POL103)

Macroeconomics (ECO102)

Economic Forecasting (ECO108)

Econometrics (ECO105)

Political Economy (ECO106)

Computer Programming (IT103)

1 year
1 semester

Formal Logic (FUN133, EN)

Mathematical Analysis (FUN101, EN)

Principles of Finance (FIN114, EN)

Quantitative Decision Making (FUN118, EN)

Academic Writing and Presentation Skills (HUM108, EN)

Principles of Economics, Business and Management (MNG101)

2 semester

Microeconomics (ECO101, E, EP, ITM)

Finite Mathematics (FUN122)

Statistical Data Analysis (FUN107, E, EP, F)

History of Economic Theories (ECO103)

Elective course

2 year
1 semester

Macroeconomics (ECO102, E, EP, ITV)

Mathematical Methods in Economics (FUN105, EN)

History of Political Ideas (POL137)

Introduction to politics (POL101)

Econometrics (ECO105)

2 semester

International Economics and Trade (ECO121)

International Relations (POL104)

Comparative Politics (POL103)

Intermediate Macroeconomics (ECO129)

Welfare Economics (ECO122)

3 year

1 semester

Applied Game Theory: Modelling Politics and Business (POL121)

Public Finance (FIN104)

Social Research Methods (FUN108)

Political Economy (ECO106)

Managerial Economics (ECO107)

2 semester

Simulation Development (POL142)

4 year

1 semester

Internship (POL116)

Bachelor Thesis (POL117)
