Living cost

Full fee paying overseas students must have funds and prepare evidence to be submitted to the Immigration New Zealand that they have at least NZ \$20,000 for a full year of study or NZ \$1,250 per month to stay in New Zealand.

All tuition fees quoted are based on the current year tuition fees and are subject to change for future years. The fees quoted are based on a paper basis calculated over one year of study (1 full time EFT unless otherwise stated).

The estimated tuition fee is to enable you to pay your tuition fees in advance as required by Immigration New Zealand for visa purposes.

The actual tuition fees that you will be required to pay at enrolment are calculated based on the individual EFT value for each course you enrol in. Fees are set by the University Council. Alterations to the papers you take, acceleration of your academic programme or repetition of papers will result in an increase or decrease in the estimated tuition fee. Further information on [international fees](#) and domestic fees can be found on the University of Waikato website.
