Meet our alumni

Every success story starts with a first step – and for these students, it was our International Study Centre. Now, they're thriving at Lancaster University and the future looks bright.

Lancaster is one of the best universities for astrophysics and my foundation course enabled me to secure a place here. When I was a child, I was told I was going to be a doctor – but I looked up at the moon and thought 'I want to be there'. That's how my dream started.

The university's rankings are really impressive. It's in the UK top 10 – and the linguistics courses are ranked even higher. Developing a background in media on my foundation course made it easier to engage with the content of my degree.
